Building Industry Association (BIA/SC),
International Conference of Building Officials (ICBO), &
California Building Officials (CALBO)
Present:

Energy Code Training

For Builders & Building Officials

Major Title 24 Changes Begin in June!

AB970 Training – Presented by ConSol

The California Energy Efficiency Standards will undergo dramatic changes on June 1, 2001. These changes will effect not only choices of energy-efficiency features and the resulting documentation, but also how some features are installed. There are new requirements and options for HVAC installations that require 3rd party inspections and tests. This class will cover all of the changes, explain what is optional, what is required, and review potential costs.

This training is offered jointly to Builders and Building Department staff so that everyone has the same information and understanding of these important changes.

Classroom Training Schedule:

9:30 a.m. - 11:30 a.m. Please Select Session:

- ☐ April 3 - Edison CTAC – 6090 N. Irwindale - Irwindale CA
- ☐ April 4 - Edison Ventura Service Center – 10060 Telegraph Rd – Ventura, CA
